

A CARD.
TO DRY GOODS MERCHANTS. In consequence of the extremely unsettled state of the currency for a few years past, rendering the sales on credit so very hazardous, and the manifest wrong and injustice of charging the good man so high a profit as the necessity of the case compels every one to do in order to meet the losses by the bad, we adopted the plan of buying and selling exclusively for cash. And now having fully tested the fact, that those who buy their goods on credit, or of credit houses, or of cash and credit houses, cannot at all compete with our customers in the sale of their goods, we shall therefore, continue the same system.

By paying cash for our goods, we are enabled to obtain most of them from Manufacturers, and from first hands, thereby saving (at least) all the charges of the commission merchant, such as commissions, guarantee, interest, labor, &c., which often amounts to a retail profit, which enables us to sell by the piece, as low as they are usually bought by the package, (interest off).

We therefore specially invite all those in the trade who are not willing to pay the losses by others, and can make such pay for their goods, to call and examine ours, before purchasing elsewhere.

We keep constantly on hand a general assortment of American, English and French, Woollen, Linen, Cotton and Silk, Fancy and simple Dry Goods, by the piece or package.

Liver Complaints, AND ALL SICKNESS AND DISEASE DR. LIN'S TEMPERANCE LIFE-BITTERS.

CHINESE BLOOD-PILLS.
The greatest Secret discovered!

Purge—purge—has been the cry for the last few years. This has been effectually tried, and yet sufferers have multiplied—and died; and why? Not because purging was not necessary, but too much had been done—without the tonic to follow, and sustain the system. Purge, you must! The sickly humors of the blood must be carried off—the accumulation of them prevented. Prevent them the growth of such humors.

Why do the Chinese live to such immense ages and still retain the powers of youth or middle age? Because they purify the blood. The CHINESE BLOOD PILLS—so called because they work upon and cleanse the blood—are the standard remedy. These pills will do it; and the Temperance Bitters, taken as directed, will strengthen the system and prevent the accumulation of base humors which infect the blood, and which only increases by purges, unless the bitters are taken after. Buy, then, these pills and bitters. Take weekly the pills, and daily the bitters, and if you are or have been invalids for weeks, months, or years, you will find the sickly humor drawn off, and prevented from a return, and the yellow galled hue of sickness change rapidly to the full blooming glow of health and youthful buoyancy.

There are cases so numerous of these brilliant effects, that time and space forbid an attempt to put them down. Buy and use these medicines, and you no other, and health and strength shall be yours. See wrapper and directions that come with them.

FRAUDULENT COUNTERFEITS.
Will be attended to. Do not remedy of the kind sold here have my name—O. C. LIN, M. D.—on the wrapper, and also the notice as follows:

Proof overwhelming to be had where it is sold. It is also a certain cure in nearly every case.

It is so perfectly satisfactory that the proprietor has given directions for his agents to refund the price to any one who is not pleased with, and cured by it. He hopes also that this may secure its great benefit to the distressed sufferers who are labouring under Headache.

HEADACHE.
CERTAIN CURE FOR SICK HEADACHE, which has been used in families, every member of which has had sick headache from infancy, as a constitutional family complaint, and has cured effectually in every instance yet known, amounting to many hundreds. It is not unpleasant to the taste, and does not prevent the daily avocations of one using it; it must be persevered in, and the cure is gradual, but certain and permanent. Instances are constantly multiplying where this distressing complaint is completely relieved and cured, although of years standing by the use of Dr. Spohn's celebrated remedy. One decided preference is its pleasantness, having none of the nauseating effect of common drugs.

It is so perfectly satisfactory that the proprietor has given directions for his agents to refund the price to any one who is not pleased with, and cured by it. He hopes also that this may secure its great benefit to the distressed sufferers who are labouring under Headache.

DR. A. SHERMAN'S
EDICATED LOZENGES.
Children or adults can take medicine in this form without difficulty. It is the only way to make it pleasant yet discovered.

Purchasers will please observe that the name "A. SHERMAN, M. D." is on each box. SHERMAN'S COUGH LOZENGES.

His lozenges are sealed, and have "A. SHERMAN, M. D." on the side of the box. They are the safest, most pure and effectual remedy for coughs, colds, consumptions, whooping cough, Asthma, tightness of the Lungs or chest, &c. &c. The proprietor has never known an instance where they did not give perfect satisfaction. Several thousand boxes have been sold within the last three months restoring to health, persons in almost every stage of consumption, and those laboring under the most distressing cold and coughs.

They do not check and dry up the cough, but render it easy, promote expectoration, allay the tickling or irritation, and remove the proximate or exciting cause. They are made from a combination of the most valuable expectorant for cough medicines, and are undoubtedly superior to every thing in use for those complaints. Hundreds of certificates have been offered of their wonderful virtues, from those who have been saved from an untimely grave and restored to perfect health by using them!

Dose.—One lozenge is a dose for an adult, and may be repeated from three to six times a day, as required. Children, eight years old, half of one; four years, a quarter, and so in proportion. Very small children or infants will take them best dissolved in a little water. Should they act as an emetic, or produce nausea, the dose must be lessened to what the stomach will bear. Half of one will generally be sufficient to take before breakfast, as the stomach is more easily sickened. No ill effects can arise from an over dose, as it will cause the stomach to reject it; and although not a pleasant sensation, will be found to give relief. Where there is much pain in the breast or side one of Sherman's Poor Man's Plasters should be applied over the part, and worn till relieved. If attended with costiveness, a few cathartic or laxative Lozenges, or any mild cathartic medicine should be used as occasion requires. Sold at the Variety Store, by PANGBORN & BAINS, and Jewellers, Burlington, Vt. wholesale agents. A liberal discount to merchants who buy to sell again. For sale by J. DRA.

In coughs, colds, asthma, difficulty of breathing, oppression of the chest or stomach, they will immediately soothe, and greatly benefit the patient. Persons of sedentary habits, or those obliged to stand much, will receive decided support from one of the truly strengthening plasters. Physicians generally recommend them, in preference to all others, because they stick or adhere better and afford greater relief. In their operation they are stimulant, tonic, and anodyne. They are composed of entirely different ingredients from any other; and known from the experience of millions, who have used them, as well as the united testimony of all the celebrated and distinguished clergy and physicians, to be the most useful and highly medicated plaster, ever invented or offered to the public. Several persons have called at the ware house to express their surprise and thanks at the almost miraculous cures their plasters have effected. One man who had been afflicted with rheumatism, as to be unable to dress himself without assistance, was enabled after wearing one, only one night to get up alone in the morning, put on his clothes and call at our office with eyes beaming with joy and his tongue pouring forth the gladness of his heart, at the sudden and signal relief he had received from this best of all remedies. READ, REFLECT.
TRUTH IS SELF-EVIDENT.

In the country so subject as this to sudden changes in the temperature of the atmosphere, is of the very greatest importance that a strict watch be constantly kept upon the very seat of life—the region of the stomach and bowels. It is there the Creator has placed the VITAL PRINCIPLES of our existence; and it is through them that the human frame continually renews and renews itself from the natural forces it sustains by the very action and reaction of the life principle. The stomach and bowels may therefore be called the grand regulators of the body's health. They sound the alarm when anything infectious has been absorbed; they become affected, even when the most remote members of the body have sustained injury. There sympathy with every ill that can befall each and all of the corporeal organs, is as fixed and steady as it is prompt and extensive. It is only by proper and timely attention being at all times paid to the stomach and bowels, that the system can EXISTENCE, the stomach and bowels, so that they may be supported in their regular functions, that the changes of temperature are rendered less affecting, and a state of almost uninterrupted health can be assured.

Although the causes which produce and foster disease in the human body are very numerous, yet the effect is invariably the same, namely—IMPURITY OF THE BLOOD—and whatever medicine will carry off these impurities which have produced this contamination of the blood must necessarily, restore the healthy condition of the body, and the surest safeguard against protracted infirmity and premature decay.

It is needless to recapitulate here, all that has come to me to time been added to prove the efficacy of Brandreth's Vegetable Universal Pills.

One successful experiment has convinced even the most sceptical, that it is the only Medicine calculated for the certain cure and prevention of disease, and thousands and tens of thousands have been restored to health and happiness under its beneficial auspices, who have been pronounced incurable by physicians of the first standing, and in many cases, when every other remedy had been resorted to in vain.

In all cases of pain and weakness, whether it be chronic or recent whether it be deafness or pain in the side, whether it arises from constitutional or some other cause—whether it be from internal or external injury, the disease may be cured by the use of Brandreth's Vegetable Universal Pills. Their safety in all the various stages of existence—from helplessness to old age—has long been subject of especial commendation and wonder—and the fact that the application of VEGETABLE PURGATIVES is unattended by any least inconvenience, and that no particular attention is required at the time of their use, either as regards diet or action, constitutes of itself one of the most important benefits ever bestowed on mankind.

The great business of "Purging" in times of sickness is beginning to be properly appreciated, and extensively understood. Common Sense (that unerring guide, which not only directs the path of duty, but can mislead,) has found that it is much more convenient to take an occasional dose of Pills, and thereby ensure UNINTERRUPTED HEALTH, than to submit to being blubbered or salivated, with the certainty that if Death do not immediately follow, mortification and perhaps other premature sufferings will be entailed; and that the only individual profited by the treatment is the Doctor.

It is also well worthy of consideration, that the principle of purging with Brandreth's Pills removes nothing but the useless and decayed particles from the body—the morbid and corrupt humors of the blood generally impede the functions of the liver when they settle upon the muscles—goat when they settle upon the nerves—consumption when they settle upon the lungs; costiveness when they settle upon the intestines—apoplexy, paralysis, and all the train of melancholy disorders so fatal to the sufferer, when these settle upon the lining of the blood vessels.

The depravity of the humors is also the immediate cause of intermittent fevers and dysentery, as nothing is required but the contact or contagious miasma, to produce bilious, yellow, scarlet, and the like kind of fevers, as dysentery and diarrhoea.

It must, therefore appear self-evident that purging the foul humors from the body is the only True and Effective means of curing and preventing these complaints, and every other form of disease; for as it requires the tempest and the tornado to bring about a state of purity in the ocean when its waters have been stagnant, so will it require repeated evacuations by the bowels, before the blood can be relieved of its accumulated impurities, and Nature left free to restore every organ to its proper healthy action. But yet even when this has been done it is not enough, unless those who take little exercise to enjoy perfect health, unless they occasionally make use of vegetable purgative medicine; for the conduits of the blood are there, they kept free from those impurities which would prevent its steady current ministering health—morbid humors are prevented from becoming morbid by its action.

The purity of the blood is also the immediate cause of intermittent fevers and dysentery, as nothing is required but the contact or contagious miasma, to produce bilious, yellow, scarlet, and the like kind of fevers, as dysentery and diarrhoea.
